1923

Application for copies should be addressed to the King's Printer, Ottawa.

# REPORT

## OF THE

# INSPECTION OF WEIGHTS AND MEASURES, ELECTRICITY AND GAS

To the Honourable

The Minister of Trade and Commerce.

SIR,—I have the honour to submit the annual report on the Inspection of Weights and Measures, Electricity and Gas; also statements in connection therewith for the fiscal year ended March 31, 1923.

F. C. T. O'HARA,  
Deputy Minister.

### WEIGHTS AND MEASURES INSPECTION SERVICE.

Mr. E. O. Way, Director of Weights and Measures, reports as follows:—

The activities of the Weights and Measures Service for the year 1922-23 again show a steady progress. Stability of effort is evidenced by holding and increasing the revenue collected in 1921-22 by the sum of \$6,122.02, whilst economic efficiency is represented by a reduction in administrative expenses of \$11,840.46—a result upon which the District Officers are to be congratulated.

The figures are as follows:—

	1921-22	1922-23	Increase
Revenue Collected	\$272,137.02	\$278,259.04	\$6,122.02
Expenditure.....	\$313,982.04	\$302,141.58	Decrease \$11,840.46

A gain of \$17,962.48 has therefore been made against the deficit, which has been reduced from \$41,845.02 for 1921-22 to \$23,882.54 for 1922-23.

If the Cost of Living Bonus, which amounts to \$22,286.33 for the whole service, be deducted, there is left but \$1,596.21 as the actual operating deficit for the year.

The following statement constitutes an interesting record of Weights and Measures returns for the past fifteen years.

Fiscal Year	Number of Inspectors	Expenditure	Revenue	Total Deficit	Deficit less Bonus
1908-09.....	121	104,255 67	80,287 05	23,968 62	
1909-10.....	124	110,281 62	92,789 30	17,492 32	
1910-11.....	129	117,062 15	98,427 39	18,634 76	
1911-12.....	141	124,253 13	107,686 01	16,567 12	
1912-13.....	171	131,344 71	100,696 52	30,648 19	
1913-14.....	164	144,989 97	113,862 40	31,127 57	
1914-15.....	174	164,604 93	105,974 95	58,629 98	
1915-16.....	211	181,113 86	112,240 11	68,873 75	
1916-17.....	207	188,086 60	131,625 60	56,461 00	
1917-18.....	176	211,060 39	141,389 40	69,670 99	
1918-19.....	139	204,159 00			
		Bonus 25,726 89			
1919-20.....	127	229,885 89	136,497 80	93,388 09	67,661 20
		226,851 82			
		Bonus 45,663 54			
1920-21.....	124	272,515 36	149,473 43	123,041 93	77,378 39
		268,153 35			
		Bonus 38,932 73			
1921-22.....	120	307,076 08	267,105 62	39,970 46	1,037 73
		286,358 58			
		Bonus 27,623 46			
1922-23.....	119	313,982 04	272,137 02	41,845 02	14,221 56
		279,855 25			
		Bonus 22,286 33			
		302,141 58	278,259 04	23,882 54	1,596 21

There was no Bonus prior to 1918-19.

The two most notable features of the above statement are the large increase in revenue collected for the year 1920-21, and the large reduction in the number of employees in the past seven years.

The increase in revenue in 1920-21 was effected by an increase in inspection fees, established by Order in Council, and made effective April 1st, 1920, to meet the universal rise in charges confronting the service in the conduct of inspection work.

The second feature, reduction and limitation of staff to the requirements of the service, is the greatest single factor to efficient and economic administration. The cost of living and salaries have so greatly increased in the past few years that Inspectors must be fully employed all the year round if the salary overhead is to be met. The inspectable equipment in a city or district is relatively a fixed quantity, which done, the officers have only unremunerative supervisory work to do: for whilst inspections may be made at any time, inspection fees can only be charged normally once a year. The staff is now just adequate, the freedom from overmanning being largely responsible for the marked improvement above shown.

A general financial statement for the year 1922-23 by districts and provinces will be found in Appendix A.

## SESSIONAL PAPER No. 8

The table following shows the number of weights, measures, weighing and measuring machines inspected during the year, detailed statements being given in appendices B and C.

## SUMMARY

	Submitted	Verified	Rejected	Percentage of Rejection
Weights (Dominion).....	93,389	93,050	339	0.36
Weights (Metric).....	1,076	1,069	7	0.65
Measures of capacity (Dominion).....	126,558	126,502	56	0.04
Measures of capacity (Metric).....	74	74		
Measures of length (Dominion).....	9,577	9,533	44	0.45
Milk cans.....	86,494	86,494		
Ice cream containers.....	39,740	39,740		
Babcock glassware (pipettes).....	57,079	55,996	1,083	1.88
Gasolene measuring devices.....	20,703	19,844	859	4.14
Weighing machines.....	157,224	149,658	7,566	4.81
Weighing machines (Metric).....	584	572	12	2.05
	592,498	582,532	9,966	

The table shows a total increase of 29,411 in the total equipment inspected over 1921-22, the most notable increase being that of 2,809 in the number of gasolene measuring devices.

## MILK TEST GLASSWARE.

The quantity of cream and milk test glassware inspected under the Milk Test Act shows, as anticipated in my report last year, a very considerable increase.

Altogether, 57,079 pieces were received for inspection, as against 34,633 pieces last year, yielding an increase in revenue of \$1,100.65.

The total fees collected amounted to \$2,800.25, as against \$1,699.60 last year.

## SEIZURES AND PROSECUTIONS.

The number of seizures for the year total two hundred (200), made up as follows:—

Illegal spring scales.....	133
Other weighing machines.....	27
Incorrect and false measures.....	21
Miscellaneous.....	19

Prosecutions were only entered against five of the above, together with five under section 61a of the Weights and Measures Act, for sale by short weight. Nine convictions were obtained with penalties, amounting to \$148; one case was settled out of court.

Weights and Measures prosecutions are less than they should be because many offences discovered by Weights and Measures inspectors are referred to other departments to be dealt with under specific legislation. Many cases of short weight in butter are referred to the Dairy Department under the Dairy Industry Act, short weight in sealed package goods is referred to the Department of Health under the Food and Drugs Act, and offences *re* the sale of vegetables to the Department of Agriculture under the Root Vegetables Act.

14 GEORGE V, A. 1924

## ADMINISTRATION AND STAFF.

Changes in personnel have taken place in the retirement of District Inspector Thos. Parker, of Nelson, in June last, by the resignation at the end of March of District Inspector G. D. Fyfe, of Calgary, and Inspector D. Cunningham of Saskatoon, and by the regrettable death of District Inspector James Barry, of St. John, at the close of the fiscal year. The St. John District comprises the whole of the province of New Brunswick, and throughout his twenty years' service, Mr. Barry proved himself an officer of exceptional personality and merit, unimpeachable integrity, and painstaking to a fault. His passing is a severe loss to our maritime districts.

With the retirement of District Inspector Thos. Parker, the Nelson District was abolished and the territory amalgamated with the District of Vancouver, of which it formed a part prior to July, 1905. The mountainous territory of British Columbia is naturally unproductive of revenue, outside the large city of Vancouver, and this amalgamation will lighten expenses and make for greater economy in administration.

Five vacancies have been filled and one new appointment made during the year.

All appointments are made through the Civil Service Commission, and since 1918 forty (40) vacancies have been filled. Of these, thirty-eight are returned men, and eight of these partially disabled S.C.R. vocational trainees. Weights and Measures work, however, is of such a heavy laborious nature, involving so much physical activity, that only men with slight disabilities can be safely employed.

There is throughout the service clear evidence of a marked increase in interest and efficiency as a result of classification and the examination system of appointment and promotion. Disappointment, and may be a little jealousy, will exist when one fails to secure promotion, but it is easier to give place and service to a colleague of higher rating on the promotion list than to another whose preference is not based upon competitive merit.

Whatever the cause, the efficiency and status of the Weights and Measures service has advanced in the past four or five years in a pronounced degree, and the returns herein printed bear indisputable witness thereto.

## THE METRIC SYSTEM.

International trade, and particularly the trade between Canada and the United States, is not a little hampered by the difference that exists between the gallon of the United States and the Imperial or British gallon. The Imperial gallon has a cubical content of 277.274 cubic inches as against the American gallon, which is the old English Winchester or wine gallon of the time of Queen Anne, and has a cubical content of 231 cubic inches. The Imperial gallon is therefore 20 per cent larger than the American gallon. Both gallons, however, are legal in their respective countries and there is no prefix or qualifying term to differentiate the one from the other as used and quoted in international trade. This lack of identity occasions much confusion. For instance, a Canadian, examining wholesale quotations on paint, will find American prices lower than Canadian or British. If he buys the American product, he finds that he has not only not got Imperial measure but has received goods that he cannot sell in the condition he received them without danger of prosecution offering both illegal and short measure. As another illustration, an English

## SESSIONAL PAPER No. 8

[illegible]

ELECTRICITY AND GAS INSPECTION SERVICES.

Mr. O. Higman, Director of the Electricity and Gas Inspection Services, reports as follows:—

The returns for the fiscal year which ended on the 31st of March last show a decrease in the number of meters tested as compared with the fiscal year 1921-22. This was due mainly to the general depression experienced in all industries, there being fewer new meters offered for verification than in the year previous.

The total number of electricity meters tested during the fiscal year 1922-23 amounted to 209,842, gas meters during the same period 100,180, making a combined total of 310,022. The total number of both classes of meters tested during the previous year amounted to 337,009.

The amount of revenue accrued from the inspection fees was:—

Electricity inspection .....	\$134,842 81
Gas inspection. ....	69,577 50
Total.....	<u>\$204,420 31</u>

The expenditure for the fiscal year 1922-23 was as follows:—

Electricity and gas, salaries.....	\$116,915 64
Contingencies.....	39,551 12
Salary bonuses.....	11,402 40
Total.....	<u>\$167,869 16</u>

This would indicate a surplus of \$36,551.15 on the year's operations without making deductions for the Ottawa Laboratory staff and office accommodation throughout the Dominion.

In the course of the year a device has been satisfactorily developed in the laboratory by which the master clock controls the starting and stopping of rotating standards which are being calibrated for the use of inspectors in the testing of meters. This master clock, which is used for checking and calibrating stop-watches, has a seconds pendulum which makes a momentary electrical contact every swing. This clock is considered to be running poorly if it varies more than one second per week. Use has been made of this electrical impulse, given accurately at second intervals, to alternately open and close the potential circuit of the meter under test every 60 seconds. The meter thus runs for a minute and stops for a minute; the stop between runs giving sufficient time to read the meter and calculate its speed. The use of a stop watch with its attendant difficulties is thus entirely eliminated, and any one run can be relied upon for an accuracy better than one-tenth of one per cent.

A considerable amount of investigation has been carried out during the year in connection with the matter of the standardizing of the capacity ratings of gas meters, these being now uniformly based on the number of cubic feet of gas that a meter will pass when a pressure equal to two inches of water is applied at the inlet of the meter and the gas passes the out-let at a pressure equal to one and one-half inches of water. The rated capacities of meters thus have now an absolutely definite meaning, in contra-distinction to the old method

## SESSIONAL PAPER No. 8

of rating by lights. Under the old method, which was entirely arbitrary, the number of cubic feet of gas per light was an irregularly decreasing number as the size of the meter increased, and the five-light meters of different makes varied largely in the amount of gas they would pass under similar conditions. In other words, the new rating gives absolute information as to the performance of a meter, the old one did not.

During the year a large number of tests of the efficiencies of incandescent electric lamps, and the relative lengths of life of different makes were carried out.

## THE EXPORTATION OF ELECTRICAL ENERGY.

The total amount of electric power exported to the United States during the fiscal year was 1,054,872,585 kilowatt-hours, as against 861,567,183 kilowatt-hours for the previous year, showing an increase of 193,305,402 kilowatt-hours. This does not imply that the licensed quantities were exceeded during the fiscal year 1922-23, for in no instance did any exporting company exceed the authorized amount, but that the demand for power in the United States fell off considerably during the year 1921 and came back to more normal conditions during 1922.

With regard to the general policy of the export of electrical energy from Canada, and more particularly in respect of recent discussions that have taken place as to the desirability of cutting off the export altogether, the paragraph on the subject contained in our 1920 report might with advantage be repeated. It is as follows:—

“There are eleven hydro-electric companies at present engaged in the export of electrical energy to the United States under conditions as to quantities and terms similar to those that obtained prior to the war. With regard to the demand made by certain of the municipalities that the export of power be reduced in order that an increased supply be made available for Canadian users, it may be stated that on former occasions when the question of cutting-off the export of electric power has been raised interested parties in the United States have pointed out that should the export be discontinued by Canada the question of the export of coal from the United States to Canada would also have to be considered, and discontinuance in the one case would no doubt be followed by similar action in the other.”

It may be stated that the policy in the past has been not to permit hydro-electric companies to export more than 50 per cent of the generating capacity of the plant, the other 50 per cent being retained for Canadian users.

The Town of Annapolis	Annapolis	Water		2	66	2,500	101	101		8	
Antigonish Electric Company	Antigonish	Oil		1 0		115 230	115 230	115	1	200	
Canada Electric Company, Limited	Amherst	Steam		1 3	60	2,200	220 550 220	110 115 220	60	1,652	
Electric Light Commission	Aylesford	Purchased								68	
Barrington Electric Company, Ltd.	Barrington	Water		1 3	60	2,300		110		18	
Barss Corner Electric Light Co., Ltd.	Barss Corner	Purchased						110		18	
The Bear River & Digby Elec. Lt., Ht. & Pr. Co.	Bear River	Water		3	60	2,200		110		32	
Light & Water Commissioners	Berwick	Water		3	60	2,300	110	110		170	
The Bridgetown Elec. Lt. Ht. & Pr. Co., Ltd.	Bridgetown	Water		1	60	2,200		110		260	
The Town of Bridgewater	Bridgewater	Water		2	60	2,200	110/220	110	3	636	
Canard Elec. Lt. & Pr. Co., Ltd.	Canard	Purchased		3				2,300	1	72	
Canning Water Commissioners	Canning	Purchased		3	60	2,300	220	110	2	137	
The Town of Canso	Canso	Gas		3	60	2,200	220	110	1	240	
Dartmouth Gas. Elec. Lt. Ht. & Pr. Co., Ltd.	Dartmouth	Purchased		3-1	60		550/220	110	53	1,686	
Electric Light Heat & Power Co.	Digby	Water				2,300		110		210	
The Town of Dominion	Dominion	Purchased			25			110		275	
The Gasperau Valley Elec. Lt. Co., Ltd.	Gasperau			1 5	60	2,300	110	110	1	42	
The Town of Glace Bay	Glace Bay	Water		1 2	60	2,200	110	110	12	1,661	
The Dominion Coal Company, Ltd.	Glace Bay	Steam		1 3	25	2200/6600	550 2200/6600	110 220			

Company Name	Location	Power Source	Capacity (H.P.)	Year	Notes
Sackville River Electric Co., Ltd.	Halifax	Purchased	60	1913	
Nova Scotia Power Commission (Mus- hamush Dev.)	Halifax	Water	60	2	
Nova Scotia Power Commission (St. Margaret's Bay Dev.)	Halifax	Water	60	3	
Nova Scotia Tramways & Power Co., Ltd.	Halifax	Steam	60	644	
Lower Horton Elec. Co., Ltd.	Hortonville	Purchased	60	110	
Inverness Railway & Coal Co.	Inverness		60	115	125
Kentville Electric Commission	Kentville	Purchased	60	6	110
The Electric Lt. Com's, Upper Church St.	Kentville	Purchased	60		
Kingsport Electric Lt. Co., Ltd.	Kingsport	Purchased	60		
Lawrencetown Electric Light Com.	Lawrencetown	Water	60		
The Town of Liverpool	Liverpool	Water	60		
The Town of Louisburg	Louisburg	Purchased	60		
Lunenburg Gas Company, Ltd.	Lunenburg		60		
The Town of Mahone Bay	Mahone Bay		60		
Electric Light and Power Plant	Middleton	Water	60		
Electric Lt. Power & M'fg. Co., Ltd.	Milton	Water	60		
Electric Light & Power Co., Ltd.	Morristown	Water	60		
Zwicker Electric Lt. & Power Co.	New Germany	Water	60		
Pictou Co. Electric Company, Ltd.	New Germany	Steam	60		
Dominion Utilities Co., Ltd.	New Waterford		25		
Oxford Elec. Light & Power Co., Ltd.	Oxford	Water	60		
The Paradise West Electric Light Co., Ltd.	Paradise West	Purchased	60		
The Town of Parrsboro Electric Light Pt.	Parrsboro	Oil and steam	60		
The Town of Pictou	Pictou	Steam	60		
Riverport Electric Light Commission.	Riverport	Water	60		
Sheffield Mills Light & Power Co., Ltd.	Sheffield Mills	Purchased	60		
Somerset Elec. Light & Power Co., Ltd.	Somerset				
South Berwick Elec. Light Com., Ltd.	South Berwick	Purchased	60		
Edison Elec. Light & Power Co. of Springhill, Ltd.	Springhill	Steam	60		
The Acadia Coal Co., Ltd.	Stellarton		50		
The Stewiacke Electric Lt. & Pr. Co., Ltd.	Stewiacke	Steam	60		
Sydney Mines Electric Company, Ltd. (District of Florence.)	Sydney Mines	Steam	60		
Cape Breton Electric Company, Ltd.	Sydney	Steam	60		
The Truro Electric Light Commission	Truro	Steam	60		
Waterville & Cambridge Electric Ligh & Pr Co., Ltd.	Waterville		60
